**Subject:** microsoftsettlement

I am retired from a successful partnership farming operation with my Father and Brother which lasted 52 years; so you see I have had a lot of experience. I own a personal computer and have had several programs in it and the one I like best, which I was not forced to buy is Microsoft. I think they are a very brilliant and advanced company. I think that since a majority of the states involved in the litigation against Microsoft have elected to settle the suit, I think the remaining states should settle also. The settlement would be good for the economy and for our Nation. Thank You for a "voice" in this important litigation.
